
LEGEND

- Schistosity: inclined, vertical
- Contact
- Outcrop
- Glacial debris: terraces, hummocks.
- Depression, low ground.
- Swamp
- Road
- Pit
- Location

...thy quartz with carbonate sections.

... hydrothermal (?), crystalline limestone (?)

...sive & amygdaloidal basic volcanic rocks; ...or tuff, volcanic breccia.

...canic Rocks: chlorite, sericite schist; ...ly carbonatized; abundant quartz-...bonate stringers, veinlets.

...graphitic ...ish black, in part graphitic, platy schist.

1

- 12 Quartz Vein, mostly quartz and calcite section
- 4 Carbonate Zone, Hydrothermal? (Crystalline L/S)
- 3 Greenstone possibly a dismembered basic volcanic rock ... tuff & volcanic breccia
- 2 Schistose Volcanic Rock
