

ANNUAL WORKSHOP ON TECTONIC STUDIES IN THE  
SOUTHEASTERN CANADIAN CORDILLERA

Thursday, January 19, 1978

- 7.00 p.m. Informal reception and planning of detailed program of Workshop Department of Geological Sciences Lounge, 5th floor, Bruce Wing of Miller Hall (Refreshments and poster boards available).

TENTATIVE PROGRAM

Friday, January 20, 1978

Seminar Room, Miller Hall.

- 8.30 - Coffee and doughnuts, Seminar Room, Miller 302.  
9.00-9.30 P. Simony - Univ. of Calgary Programme  
Cover-Basement Relations on the West Side of  
the Rockies.  
9.30-9.50 C. Knitter - Petrologic Studies in the Sillimanite Zone Near  
Mica Creek.  
9.50-10.10 B. Struik - The Type Area of the Caribocan  
10.10-10.30 Coffee and Discussion  
10.30-11.00 R. Brown - Carleton Univ. Programme - A Review of Results and  
Outline of Future Plans.  
11.00-11.20 M. Perkins - Stratigraphy and Structure of the Northern  
Selkirks.  
11.20-11.40 R. Leatherbarrow - Metamorphism of the Northern Selkirk  
Mountains  
11.40-12.00 J. Psutka - Northern Flank of Frenchman Cap Gneiss Dome  
12.00-13.40 LUNCH  
13.40-14.00 L. Mutti - Shuswap Complex Southwest of Revelstoke  
14.00-14.30 A. Okulitch - Shuswap Complex in the Okanagan Area.  
14.30-15.00 T. Hoy - B.C. Govt. Programme in Southeastern B.C.  
15.00-15.30 Coffee and Discussion  
15.30-16.00 R. Price - Queen's University Programme  
Relationships Between Foreland Thrust Belt and  
Metamorphic Core Zone.  
16.00-16.20 J. Hakkinen - Clachnacudainn Salient of the Shuswap Complex.  
16.20-16.40 J. Sears - Structure and Metamorphism of the Selkirk Mountains  
in the Aholkolex River Area.  
16.40-17.00 D. Archibald - Geochronology of Southern Kootenay Arc.  
17.00-17.30 K. Glover - Kootenay Arc in Creston - Salmo Area.  
17.30-19.00 DINNER  
19.00- ? "Beer and Bull" session around poster boards, Seminar Room  
Miller Hall.

Saturday, January 21, 1978  
Seminar Room - Miller Hall.

- 9.00-9.20 G. Benvenuto - The Hosmer Nappe.  
9.20-9.40 M. McMechan - Purcell Supergroup in the Rockies, Cranbrook -  
Fort Steele Area.  
9.40-10.00 W. Foo - Tectonics of the Purcell Mountains in the Canal Flats  
Area.  
10.00-10.20 Coffee  
10.20-10.40 D.R. Shaw - Wallrock Alteration at the Sullivan Mine.  
10.40-11.00 P. Fermor - Cate Creek and Haig Brook Windows in the Lewis  
Thrust Sheet.  
11.00-11.20 R. McMechan - Cenozoic Tectonics of the Flathead Valley Graben.  
11.20-11.40 E. Procyshyn - Metallogeny of South-Central B.C.  
11.40-12.10 E. Mountjoy - Regional Structural Relationships in the Rocky  
Mountains of the Jasper Area.  
12.10-14.00 LUNCH  
14.00-14.30 R. Thompson - Rocky Mountain Structure in Halfway River Area.  
14.30-15.00 J. Monger - A Plate Tectonics Overview - Canadian Cordillera.  
15.00-15.30 Coffee and General Discussion  
15.30- Discussion of Geodynamics Project Regional Structure Sections of  
the Southeastern Cordillera.
