 RE: Sample History

Number of pages including cover sheet: 1

**Message:**

Hi Dana,

We have started testwork on the Grum ore sample. Could you please fax me history of the sample that is:

How it was collected and prepared.

Time the components and the sample were left exposed to the atmosphere etc.

A brief mineralogy of the components and the Chief Geologist's comments on the nature / mineralogy would be very useful.

I will keep you posted of the results. Also as you requested, would like to plan a visit with you late July or early August once I have some results, and off course at your convenience.

Convey my best to all at the mine especially Don, Judy and Paul.

Regards,

*Naseem*

*John:  
 Could you  
 send Waseem a  
 fax on this?  
 Thanks.  
 Dana*
