

Check sampling of blast hole data.

comparison blankhole - v - bench composite deluge

Variance of  $\frac{1}{D}$

"Sample reuse method"

Actual of geostatistical model  $\rightarrow$  prediction.

① PROBLEM AT CERRACH

PRIMARILY GEOLOGICAL INTERPRETATION

NOT GRADE INTERPOLATION.

② USE GEOSTATISTICS FOR IRREGULARLY DISTRIBUTED DATA WHERE INTERPRETATION IS DOUBTFUL.

③ REASON FOR SUB GRADE MODELLING ON NEXT BENCHES!
