M E M O R A N D U M

TO: All Foremen
FROM: Ore Control
DATE: May 26, 1971
SUBJECT: CODE SIGNALS EMPLOYED BY SHOVELS/LOADERS

Effective immediately, the following codes will be employed by shovels and loaders:

- 1 Horn: Waste Dump
- 2 Horns: Crusher or H.G. Stockpile (if primary crusher not operating)
- 3 Horns: L.G. Stockpile/yellow boxes
- 4 Horns: L.G. Stockpile/red boxes

Special signs are being made to go on stockpiles. This will eliminate confusion.

All trucks, shovels, etc. will be supplied with notices explaining this.

Boulders will be designated by shifter or operator as they do not represent such a significant tonnage.
