

MEMORANDUM

TO: N. G. Stephenson
FROM: J. Gondi
DATE: October 2, 1970

For an effective ore control of tonnages, grade predictions, we seek the following data from the Mine Department. Also, we wish to have this information on hand at least by 9 a.m. each day to enable us in the preparation of our Grade Prediction Sheets, Ore Production Sheets, and Stockpile Reports for an early distribution of our data to the Mill.

J. Gondi
Senior Geologist
