

**MEMORANDUM**

TO: J. Devitt FROM: D. Hanson  
 SUBJECT: 5 YEAR DEVELOPMENT DRILLING DATE: September 12, 1974  
 REQUIREMENTS

The need for development diamond drilling over the next 5 years is estimated as follows:

	<u>Approximate Footage</u>
1) Define east wall ore (Zone III)	6,200
2) Define west wall ore (Zone III)	3,300
3) Grade control 2 years in advance of mining	3,500
4) Possible contingency holes	2,000
5) 1975 proposed drilling as per memo of Sept. 5/74	<u>5,150</u>
Total	20,150

This is an average of 4030 feet/year.

A programme of this magnitude would complete the wall ore drilling for ultimate pit planning purposes. After 1979 the only drilling required would be for grade control in advance of mining.
