

MEMORANDUM

TO: J. Devitt FROM: D. Hanson
 SUBJECT: 1975 DEVELOPMENT DIAMOND DRILLING PROGRAMME DATE: September 5, 1974

The following holes and estimated total footage should be drilled in 1975:

	<u>Holes</u>	<u>Total Footage</u>
1) deepen 66-33	1	430
2) 200' center holes for grade control	1	550
3) define west wall ore	3	1,300
4) define east wall ore	1	550
5) define thickness of diorite dykes	<u>2</u>	<u>1,220</u>
Sub-Total	8	4,050
6) contingency holes - Zones 1 and 3	1	600
7) contingency holes - Sub-Zone D	<u>2</u>	<u>500</u>
Total	11	5,150

Attached is a sketch of the suggested programme.

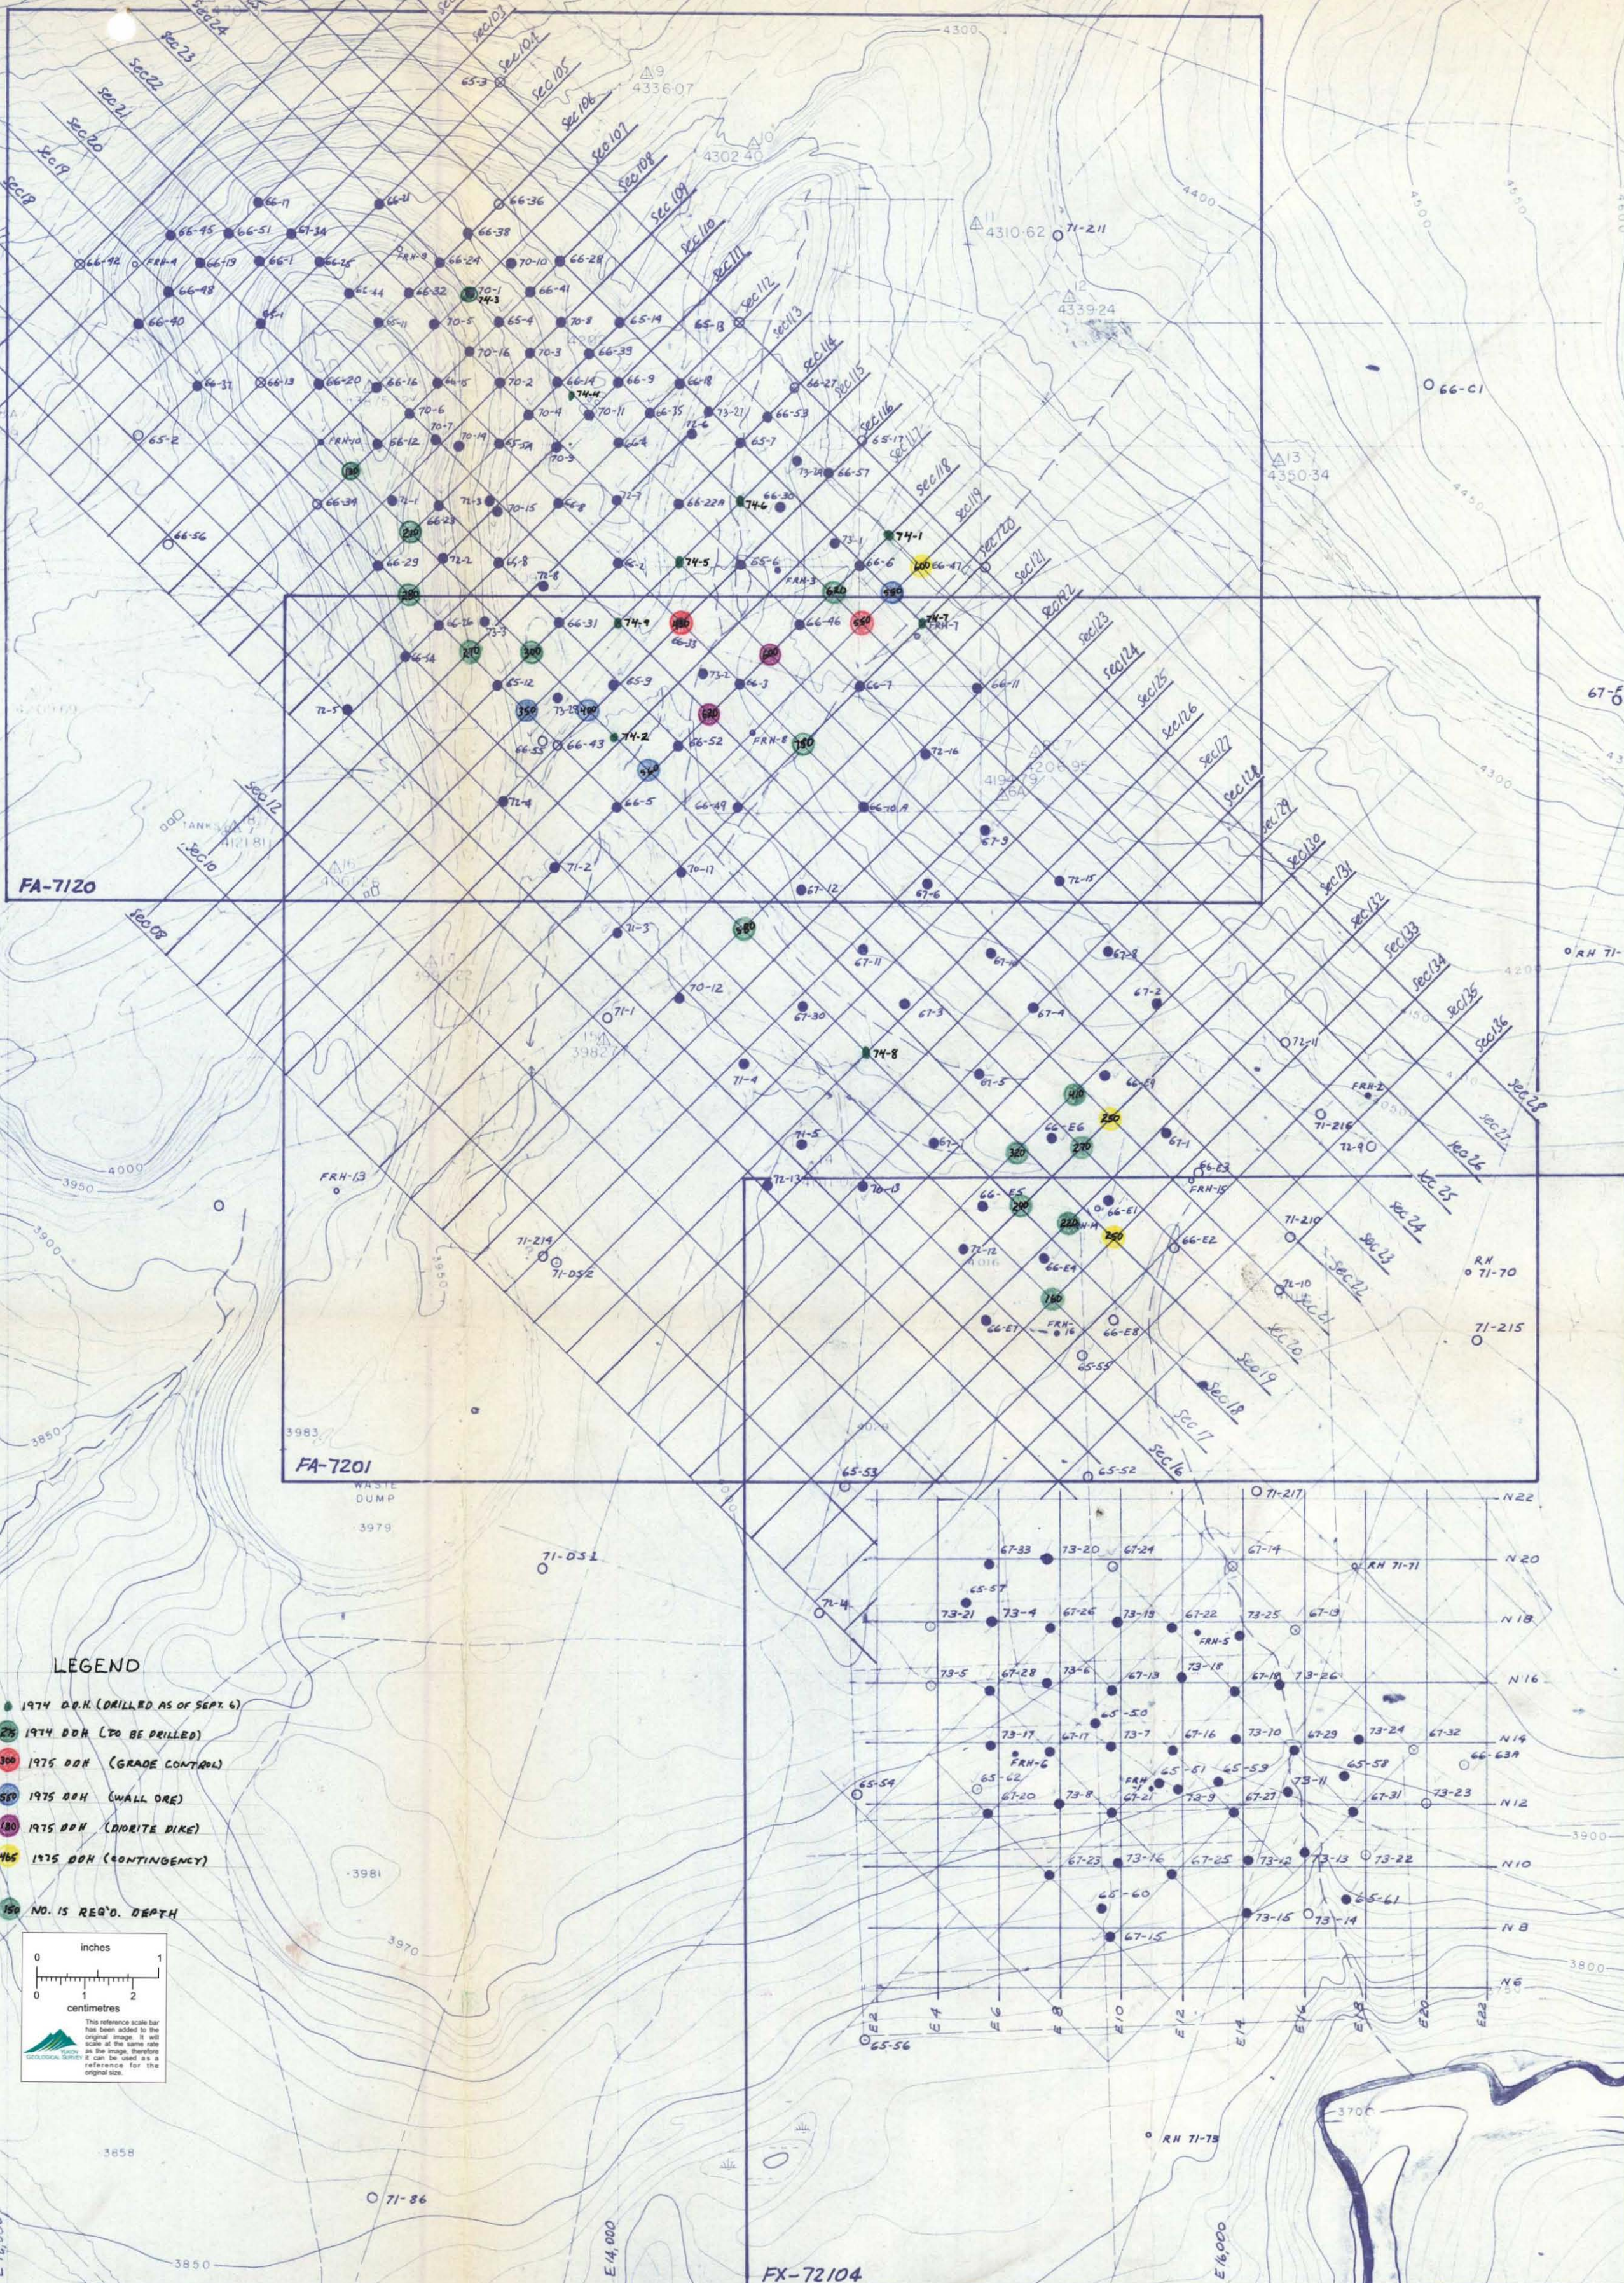

The above total footage will require a budget of \$66,950 @ \$13.00/ft. as currently estimated. The budget should also include \$1,000 for improvements to the core logging office. This amounts to a total budget of \$67,950 for 1975.
