FROM: M.O. Hampton

SUBJECT: COMPARISON OF REASSESSMENT OF ORE BODY TO ORIGINAL REPORT  
by J.F.OLK

DATE: July 21, 1970

-----

With the completion of the recent fill-in drill program the ore reserves are being recalculated. To make a direct comparison the ore reserves between 4030 (excluded) and 3575 levels were calculated with the following results.

Reassessment	33,065,300 Tons	@	9.92% Zn. & Pb.
Original	<u>30,646,700 Tons</u>	@	9.85% Zn. & Pb.
Gain	2,418,600 Tons
