EM Survey (Ground) Beta Gp.

SCALE: 400' = 1 inch SURVEY: T. Rich
 CONTOUR INT.: 2' INTERPTN: T. Rich
 STATION INT.: 100 ft. DATE: May 31st, '65

--- Lines Surveyed

*Plotted and contoured assuming a perfect grid.
 Errors in the grid were found to be serious from line 80E to the East. This affected the top and shape of the West anomaly which is re-contoured on a separate grid on a separate sheet.
 The contour numbers are true to the Base Line and errors in the grid are smaller west of the Base. The figure is not re-drafted.*
