

Ore Comparisons

002548

The area used in the comparison contained all of the Phase V ore on the 3690, 3670 and 3650 benches SE of section 112. The computer mine model does not predict any ore NW of section 112 so Phase V ore from this area could not be included in the comparison. Zone 2 ore was also not included in the comparison.

ORE COMPARISON : MINED, MILLED, PREDICTED (COMPUTER MODEL)

PERIOD: JAN. 1/79 to OCT. 31/79

SOURCE: ALL ORE IN PHASE V, BENCHES 3690, 3670, 3650 SE OF SECTION 112.
