grade from two (2) rotary test holes.

Pb	Zn.
4.2	4.1
5.4	6.0
<hr/> 4.8	<hr/> 5.1

- there are 39,930 tons of 4.8% Pb and 5.1% Zn now available on 3870 s.
- there is also a good possibility of gaining massive sulfides beyond the predicted half-bench outline.
