As we discussed last week in your office, we have a new exploration programme located southeast of the main GRIZZLY DEPOSIT that we are calling the GRIZZLY SOUTHEAST project. I have called Bernice (Shirley) for a new JEW # (021).

For now, I can make an MPR out and charge the approximately \$200,000 the drilling will cost to the "blanket" Exploration AFE of \$6.9 million. However, these funds have all been allocated to other projects and sometime in the future we will have to face the necessity of making another AFE for this project. I have gotten approval from Kurt for this project and he is aware of the AFE/MPR arrangement.

At the present time, Derek Condie has gone out for bids for this drill programme and we should know this week who the successful bidder has been.
