Dear Gregg:

Re: Mine Area Tour September 20/21, 1996 - Cominco Geologists

As we discussed earlier this week, would you and John Fleming please lead a tour of the Faro mine site area for a group of Cominco geologists. I will be unable to take part in the tour because of other commitments on the days in question.

The main thrust of the tour will be to show the group the Faro, Grum and Vangorda open pits. Also, there is Grizzly (Dy) core out for them to examine. The idea would be to provide the group with an overview of the regional, local, and mine geology.

They can take photographs, if they wish, and they can view plans at the Grum mine office. They should not be given any reserve data (outside of what has been published) or any of Anvil's mining plans or exploration targets.

John Fleming will co-ordinate any geology data of the active mines.

Have a good trip.

Yours truly,

ANVIL RANGE Mining Corporation

Richard E. Arndt, P.Eng./P.Geol.

Dear Dick:

Re: Visit to Anvil District September 20-21, 1996

This letter will confirm our phone conversation regarding the proposed visit of Cominco Ltd. geological staff to the Anvil District September 20, 21, 1996. The names of the participants are listed below.

As we discussed we would be very interested in visiting the Grum and Vangorda pits, seeing drill core from Grizzly (DY) zone and getting a feel for the regional geology and anything you can tell us about the geology and setting of the Anvil district deposits.

We will be arriving by NTAir charter from Finbow camp in N.B.C, estimated arrival at Faro is 11:15 am Friday September 20. I have arranged for a Norcan Suburban to be delivered to Faro and have made hotel bookings for the Friday night at the Faro Hotel.

Our plan would be to drive to Whitehorse late on Saturday afternoon, although Cam Allen may make separate arrangements to leave earlier on Saturday to make a flight connection. I look forward to meeting you on the 19th and to a great visit to the district.

FIELD TRIP PARTICIPANTS

- Darin Wagner, Ken Pride, David Moore Cominco Ltd. Vancouver
- Ken Leigh, Vida Grosi, Cominco Ltd. Toronto
- Cam Allen, Gerry Zeig, Cominco American Spokane
- Manuel Montoya, Cominco Peru Lima

Yours truly,

D.W. Moore
