Mr. J. Sestak,  
DAWSON CITY, Y.T.

Dear Joe:

*115-N*

Thanks an awful lot for your letter of May 5 telling me about activities in the Miller Creek - Fifty Mile River area, *Yukon (115-N)*

Although I think that the things we have already in front of us to do will prevent us from being able to take any active interest in the activities that you mention, I am sending your letter to our Vancouver regional office to alert our personnel there.

We may possibly be getting in touch with you, but in any event I do wish to thank you for keeping me informed.

Thanks also for reminding me about the Sixty Mile Placer possibilities. I am afraid though, Joe, that we are simply not able at this time to give them much consideration.

I hope that you have been able to recover from your bad fire and that you are in shape now to have a good summer. If I get to Dawson City this summer I will certainly get in touch with you.

Kindest regards,

Yours sincerely,

Paul M. Kavanagh  
Vice-President - Exploration

Toronto 12, Ont

Dear Paul;

This letter is to let you know what is happening at the Upper End of 60 Mile. Quite a few claims have been staked between Miller Creek and 50 Mile. Over two hundred have been recorded; for Silver Lead and Zinc. Aho, President of Atlas is getting interested in it. Better not overlook any bets, if you decide to come bring your Soil sample outfit. I have no assay slips now as they were burnt in the fire, but I remember all the places where I got good returns, should without fail get one mine at least.

As you know I cannot walk as I used to but a helicopter could cover these prospects in short order. Depending of course how long you would want to be at each place.

Would you be interested in the 60 Mile Valley for Placer. You know all about this and at present it is still open.

If you want to get in touch with me care of phone 2281 or write Fred G. Caley Dawson Y. T.

*J. Sestak*  
Yours sincerely,

cc. W. M. SIROLA
