Mr. E. Martens,
Box 146,
Whitehorse, Y. T.

Dear Erwin:

Many thanks for your letter of January 13th concerning mainly some prospects of Joe Sestak's in the Sixty Mile District, but also, I note with a smile, containing a sly postscript reminder of your profession.

I would like to say confidentially to you that my contacts with Joe Sestak have left me with the impression that his observations concerning his various mineral prospects are not too reliable, and I therefore do not wish to take any action at present on the prospects of his which you have brought to my attention. I notice that one of the assay certificates which you enclosed has Conwest Exploration Limited written on it and I am sure that Conwest's presumably negative reaction to the three samples assayed is a fairly reliable one. Possibly this coming summer I or one of our representatives will be in the Yukon and a visit to Joe's prospects could possibly be arranged.

I appreciate very much indeed your writing to me concerning Joe's information, and hope that you will continue to write to me occasionally concerning things of interest about which you may hear.

With best wishes for the New Year to yourself and family.

Yours sincerely,

KERR-ADDISON GOLD MINES LIMITED

Paul M. Kavanagh

Dear Paul:

Before leaving the North, you mentioned that you would appreciate hearing about anything concerning the mining industry which I thought might be of interest to you.

I had coffee with Joe Sestak today and he indicated to me that he would be interested in making some deal with the ground at 60 mile.

You mentioned to me one time that you thought the 60 mile area interesting and I felt that you may wish to know of Joe's attitude at this time. I feel sure that he would let someone take a good look at this ground and believe that he would give a fair deal.

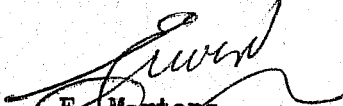

Joe let me see two assay returns and I made copies of them, which are attached. I thought you might find them interesting.

If you are interested in this area, would you let me know, Paul. You may prefer to write direct to Joe, which is fine with me, as you may wish to keep any of your dealing confidential.

I take this time to wish you the best of the season, although somewhat late, and trust that you and your family will have the best year yet.

Kindest personal regards,

Yours sincerely,

E. Martens.

P.S. You will notice that I made this short letter strictly personal and did not make mention of my profession. I felt certain that the letter head would remind you of a little promise you made at one time.

Erwin.

Office and Laboratory:

580 Nelson Street, Vancouver 2, B. C.

I Hereby Certify that the following are the results of assays made by me upon samples of ORE herein described and received from M. J. Moore June 23rd 1960

MARKED	GOLD		SILVER		Tungsten		GROSS TOTAL VALUE	
	Ounces Per Ton	Value Per Ton	Ounces Per Ton	Value Per Ton	Per Cent.	Value Per Ton	Per Cent.	Value Per Ton
2 oz. ft.	2.10		0.60		1.48			

Joe tells me that these assays are from a small area, but they sure look to be rich.

Gold calculated at \$ _____ per ounce.

Silver calculated at _____ cents per ounce.

Calculated at _____ cents per lb.

Calculated at _____ cents per lb.

Calculated at _____ cents per lb.

NOTE—Pulps of Samples retained 2 months from date of Receipt. Rejects 1 week unless otherwise instructed.
