Sweers Property Hunter Creek

July 12 1955.

**PROPERTY INFORMATION FORM**

1150

115.0

12 July 1955

Date.....

Name of Property Upper West Fork of Hunker Creek

Presented by (with address)  
Stan Rivers, Dawson City, Yukon

Date 5 July 1955

Location Upper west Fork of Hunker Creek

Access By road from Dawson up Hunker Creek and 2 mile walk

Claims Two (2) Claims

Ownership  
Louis Lyckman

Summary of Outstanding Features  
Quartz vein 8" wide bearing Pb.S. - cutting across north-east trending flat north dipping sericite schists

Opinions, Suggestions or Recommendations of Present Holder  
Wait for assay of Sample. Fin #6 - Au. - Trace  
Ag. - 9.8 oz.

Option Terms

Information is Based on  
Personal examination

Nature of Deposit  
Fissure vein bearing Pb.S.

Mineralization  
Pb.S. in quartz

Widths and Values  
Vein 8" wide exposed in bulldozer cut and some vein material in dumps around old shaft.

Strike and Dip N.S. str. dip vertical NS STRIKE

Country Rock Sericite schist

Present Known Extent and Possible Extensions  
10' known, could be extended to 400' as indicated by material from old test shaft.

Limiting Features

Workings, Kind, Amount, Location and/or Diamond Drilling

Bulldozer cut and two old prospect shafts sunk by Lyckman in 1900

Lengths and Frequency of Exposures

Known Commercial Sections

Known Non-Commercial Sections

Number, Dimensions and Grade of Ore Shoots Indicated

Possibilities of Developing Ore

Past Production, If Any

Dividends, If Any

Other Significant Features in History of Property

Found while working creek for placer at turn of century

Previous Examinations

Yukon Consolidated Gold Corp. - not interested - assays unknown

Reports, Plans or Other Sources of Information

Location on McConnell's map of Dawson Area

Reasons for Property Lying Idle

Relation to or Comparison with Other Properties in the District

New Development (Since Last Examination)
