Dear Mr. Jones:

I now have a short report from our resident geologist in Vancouver, Bill Sirola, concerning his review of the Trans Columbia data. It is his advice that we should not consider proceeding further without first visiting the property next spring to determine what outcrop is present in the vicinity of each potentially important geochemical anomaly. Sirola has so advised Mr. Godfrey, president of Trans Columbia.

Yesterday we returned to you the Geo-X report by mail.

Yours sincerely,

Paul M. Kavanagh
Vice-President

Dear Paul:

Herewith some data on Trans
Columbia Explorations. These folks
approached our Vancouver office
to see if we could assist in
raising some money either publicly
or privately.

I am wondering if you
or Noranda would be interested
& on Ted Sutterer's suggestion
am sending along the enclosed.
We have not discussed it
elsewhere.

Sincerely
Ted Jones
