

Target # **Visited by:**

1		not visited as esker covered - heavy glacial drift (out of fuel in helicopter if an other setout)
2	RH, FA, RS	Imst breccia, hematite stained, ultramafics?
3	RH, FA	1460ppb Au RGS; FA volcanoclastic sample FA02039
4	JvR, RS	Silts to test RGS 761 ppb Au, no o/c
5	RS, JvR, RH, FA	Imst/chert & greywacke contact, FA tuff-submarine volcanic sample 97626; RH red stained gully...
6	just north by RH, FA	Silts to test RGS Au anomalies
7	RS, JvR, RH, FA	Placer Claim area; sheeted qtz veinlets in phyllite/sst; chl altered dyke ?As;
8	RS, JvR	Minfile 105C007, 1964 Kerr Addison drilled, serpentinite in core sampled; o/c en route of black massive chert
9	JvR	No o/c found in October excursion
10		not visited(low priority)

Minfile Occurrences in Study Area

Tarfu 105C007	found old drill pad, sampled serpentinite core at end of hole
Lisa 105C039	not found in 2002, huge glacial deposits in area where it is located on Minfile maps
Hannka 105C053	not found in 2002, no o/c where GPS location
Ton 105C050	not visited in 2002
