APPENDIX "B"

From: Inukshuk

All text fonts are to be standard AutoCad™ fonts.

Pen numbers, sizes and ink colours are as follows:

- 1 = 0.25 black
- 2 = 0.35 black
- 3 = 0.50 black
- 4 = 0.70 black
- 5 = 1.00 black

Any rotation of the drawing to fit on standard drawing sheets is to be done from the base point 0,0 and the rotation angle is to be recorded.

All ground features in the digital file shall have x, y and z co-ordinates.

Any other information that is added to the drawings must be done on newly created layers.

A list of any new layers and contents, any drawing rotations and drawing scales created by the consultant is to accompany the maps on diskettes.

The consultant is to supply a reproducible, non-colour copy of each map included in the Area Development Scheme on a standard A1 or A0 mylar drawing sheet at a scale of 1:7500.

The consultant is to supply a reproducible, non-colour copy of each map included in the detailed site plan for the old McLean Lake Mine site on a standard A1 or A0 mylar drawing sheet at a scale of 1:7500.

what is the old McLean Lake
Mine site?
