HUDBAY TOR  
NO. 1954 25.7.30 1209P4

R D LINZEY

THE FOLLOWING NOTE FROM R B CAIRNS HAS BEEN SENT TO YOU AND I AM REPEATING IT IN CASE YOU DON'T RECEIVE IT BEFORE MONDAY.

NOTE  
I HAVE EXAMINED THE REQUEST BY DAVE TENNEY AND DOUG LINZEY FOR EXTRA FUNDING IN ORDER TO CONTINUE EXPLORATION IN THE NORTH STAR MINERALIZED SKARN ZONE AND I RECOMMEND ITS APPROVAL.

IN AN ATTEMPT TO ILLUSTRATE THE RESULTS OF DRILLING TO DATE IN THE NORTH STAR PENDANT, I HAVE ATTACHED A BRIDGE DIAGRAM TO SHOW A POSSIBLE LOCATION FOR THE MINERALIZED PART OF THE SKARN ZONE AS IT FOLLOWS THE LINE OF CONTACT BETWEEN THE FOOTWALL QUARTZITE AND THE ENCLOSING DIORITE. ALTHOUGH EIGHT HOLES HAVE BEEN DRILLED IN THE PENDANT, ONLY ONE OF THEM, NS-3 ON SECTION 23, HAS PENETRATED THE PART OF THE SKARN ZONE IN THE PROXIMITY OF THE FOOTWALL QUARTZITE AND IT INTERSECTED A THICKNESS OF ABOUT 75 FEET ASSAYING 0.52-0.70 CU. THE MINERALIZED SECTION IS PART OF A WIDER SKARN SECTION WHICH CONTAINS CONSIDERABLE MAGNETITE IN ITS UPPER PART. THE ZONE MAY IMPROVE IN GRADE AS IT IS FOLLOWED ALONG THE QUARTZITE - DIORITE CONTACT, AND IT MAY ALSO EXTEND FARTHER UPWARD ALONG THE DIORITE CONTACT. TWO HOLES SHOULD BE DRILLED INTO THE FAVOURABLE AREA ON EACH OF THE SECTIONS 24 AND 32 AND, DEPENDING UPON RESULTS, PROBABLY TWO MORE HOLES SHOULD ATTEMPT TO TRACE THE ZONE ALONG STRIKE AROUND THE WALL OF THE PENDANT.

BECAUSE OF ITS INDICATED DEPTH BELOW SURFACE, AND BECAUSE OF THE IRREGULAR NATURE OF SKARN MINERALIZATION THE ONLY CONCLUSIVE METHOD OF EXPLORING THE ZONE IS BY TRACING IT OUT WITH DRILL HOLES. THERE IS A CHANCE, HOWEVER, THAT AN ELECTRICAL OR PHYSICAL SURVEY - PULSE E.M. OR A 'TALK-A-LA-GRASS' METHOD WHICH WOULD USE THE MAGNETIC CONTENT OF THE ZONE - MAY ADD TO THE PLACEMENT OF DRILL HOLES. THE SURVEY IS NOW BEING DESIGNED BY OUR STAFF GEOPHYSICIST, BUT IT COULD NOT BE DONE UNTIL LATE SEPTEMBER WHEN THE NECESSARY EQUIPMENT WILL BE AVAILABLE.

THE PROPOSED DRILLING SHOULD BEGIN AS SOON AS POSSIBLE BECAUSE OF THE URGENCY OF DEVELOPING THE POSSIBLE PROPERTY IN TIME TO BE INCORPORATED AS PART OF THE WALTERHORSE COPPER MINING OPERATING WHILE THE SHAFT FACILITY IS STILL AVAILABLE

UNQUOTE

IF YOUR PRESENTATION ON MONDAY MORNING AFTER YOU HAVE HIT THE HIGHLIGHTS WHICH SHOULD BE BRIEF, AMONG MATTERS THAT YOU SHOULD BRING TO THE ATTENTION OF THE PRESIDENT'S OFFICE ARE (1) STATUS OF DAMS AND (2) EXPLORATION.

REGARDS,

HAROLD SCHWARTZ
