THE DECLINATION OF THE COMPASS NEEDLE 1950
 The declination of the compass needle at any place along a red line on the declination given on that red line. At other places the declination is between those given on the neighbouring red lines. True at the place marked A the declination is between 33° 30' E and 34° 00' E. The declination of the compass needle is increasing 2 minutes annually.

Surveys in 1948 and compilation in 1950 by the Topographical Survey from air photographs taken in 1949. Lithographed and printed by the Army Survey Establishment, R.C.E., Department of National Defence, 1952.
