Our Job No: 363-88

Mr. Gregg Jilson
Manager, Regional Geology
Curragh Resources
117 Industrial Road
Whitehorse, Y.T. Y1A 3T8

Dear Sir,

Re: Photo Control, Faro, Y.T.

We have now completed the above project and the results have been delivered to Mr. Fred Welter of North West Geomatics. In addition to the photo control, 5 permanent control points were established. These are points 8801 to 8804 and 8806. They should be plotted on your original 1:50 000 control plan which was prepared in 1979.

We are also returning unused photos. Used photos NW49879, 127 to 143 and 163 to 165 will be replaced by Mr. Welter.

We have enclosed our invoice for the project and trust that everything is satisfactory. Please call if you have any questions.

Yours truly,

G. Aucoin, C.L.S.
