

LEGEND

- Tertiary or Earlier**
Gp. R - granite porphyry, rhyolite
- S.G.** - Skukum Group: andesite, basalt, rhyolite, and trachyte, rhyolite, tuff, flows, granite, agglomerate, minor gneiss.
- Cretaceous**
C.I. - Coast Intrusions: granodiorite, granite, quartz monzonite, quartzite and other rocks
H.G. - Hush Group: basalt, andesite, quartzite, and rhyolite, flows, breccia, and tuff, conglomerate, minor gneiss and argillite, basalt dykes, altered volcanics.
- Jurassic and Cretaceous**
T.R. - Tintina Formation: argillite, siltstone, conglomerate, argillite local (Upper Jurassic and Lower Cretaceous)
L.G. - Laberge Group: gneiss, quartzite, conglomerate, siltstone, argillite, marbles (Lower Jurassic and later)
- Triassic**
L.R.G. - Lewis River Group: gneiss, quartzite, argillite, conglomerate, and tuffaceous equivalents; andesite, basalt, flows, limestone, breccia, metamorphosed rocks.
- Permian(?) and Permian**
Taku Group: chert, gneiss, flows and dykes, limestone, breccia, metamorphosed rocks (containing numerous serpentine bodies)
- Pre-Cambrian and Later**
Y.G. - Yukon Group: quartzite, quartz-chlorite and mica schists, quartzite, micaceous quartzite, gneiss, and amphibolite; feldspathic gneiss, granitic rocks, leucocratic gneiss, argillite, limestone
- volc., meta. volc. - volcanic rocks of uncertain age, metamorphosed volcanic rocks
