

LEGEND

LITHOLOGIES		SYMBOLS	
Tertiary	Tr	—	Dyke; not necessarily to scale
Mesozoic	Kgd	—	Attitude of structure / bedding
Cretaceous (?)		G	Attitude of jointing
Jurassic (?)		X	Gossanous area
Laberge Group. Argillite, limestone, quartzite, and metamorphic equivalents.	JL	+	Rock sample; outcrop
Basaltic andesite breccias, flows and minor associated fine grained sediments.	Mv	o	Rock sample; float or scree
		o	Soil sample
		o	Stream sediment sample
		RS-01/5,0.3	Sample number / Au ppb, Ag ppm
		—	Assumed lithologic contact
		—	Elevation contour; interval 100ft.
		—	Creek, indicating flow direction
		—	Road
		—	Area of proposed soil geochemistry, showing baseline orientation

NOTES
 * composite sample.
 Locations based on topography.
