Kerr Addison Mines

Van. B.C.

Dear Mr Swala

I should like to know if you would be interested in optioning the NTK-1-30 or JS claims or NTS 105913-14 southeast of Ross River. We did find some mineralized float in the creek coming out of Forty Mile Lake. The NTK claims again the Fault and back claims that Dupont have under option.

If you are interested in either of these two properties contact Dennis Sigaret, at 5316 Fleming St Ph 321-0074 Van, as he is a director of Nithec Expl.

Yours truly

M. Sherman
