August 21, 1980.

Mr. Glen L. Harris,
707 Black Street,
Whitehorse, Y.T.

Dear Glen:

Enclosed is one ozalid print of the gravity survey conducted on the VAM claims. The gravity survey indicates the extent of the line cutting done on the property. All other lines shown on the plan are chained-flagged lines, some of which were blazed and partly cleared.

The claim tags which were not placed on the claimposts are likely to be in our office in Vancouver but, I have not been able to find them because all our records are being refiled. The tags would be forwarded to you when they are found. I have been working in southern B.C. and have just returned to Vancouver.

Bill and I plan to visit Whitehorse and I hope to do a short work program on the Pelly claims later on this month. We shall try to get in touch with you and Carlos at that time.

We are happy to hear that work is being conducted on your properties and also glad that you have found additional mineralization on the ground. Keep up the good work.

Yours truly,

Fred Chow,
Geologist.

FC/al:

Encl. 1. Gravity Survey Map #8.

707 BLACK STREET
WHITEHORSE YUKON
AUGUST 10 1980

KERR ADDISON MINES LTD
ATTN MR SIROLA OR MR CHOW.

HAVE YOU ANY EXTRA TAGS
FOR VAM CLAIMS. NOTICED #2
OF 37 & 38 HAVE NONE. IF YOU
HAVE PLEASE FORWARD AND I
WILL HAVE THEM PUT ON.

WE FOUND MINOR GALENA ON
LOWER PART OF CANYON AND CONSIDERABLE
CU ZN AROUND BOUNDARY OF
PATCHES AND VAM.

HUDSON BAY HAVE DONE A
LOT OF WORK ON SHALE-RENO
SINCE SPRING.

ARBOR RES. OPTIONED THE
EAGLE GROUP.

ALSO DO YOU HAVE A SKETCH OR PLAN
OF CUT LINES AS WANT TO EXTEND THEM
FOR FURTHER SURVEY. I THANK YOU.

YOURS TRULY
Glen L. Harris
