Dear Dick:

Enclosed is a sketch showing the two location lines which were not blazed during the last staking contract during August 28th - 29th, 1978.

We accept your offer to tag the claim posts, Nos. Pelly 93 to 194 inclusive, at your regular daily cost rate.

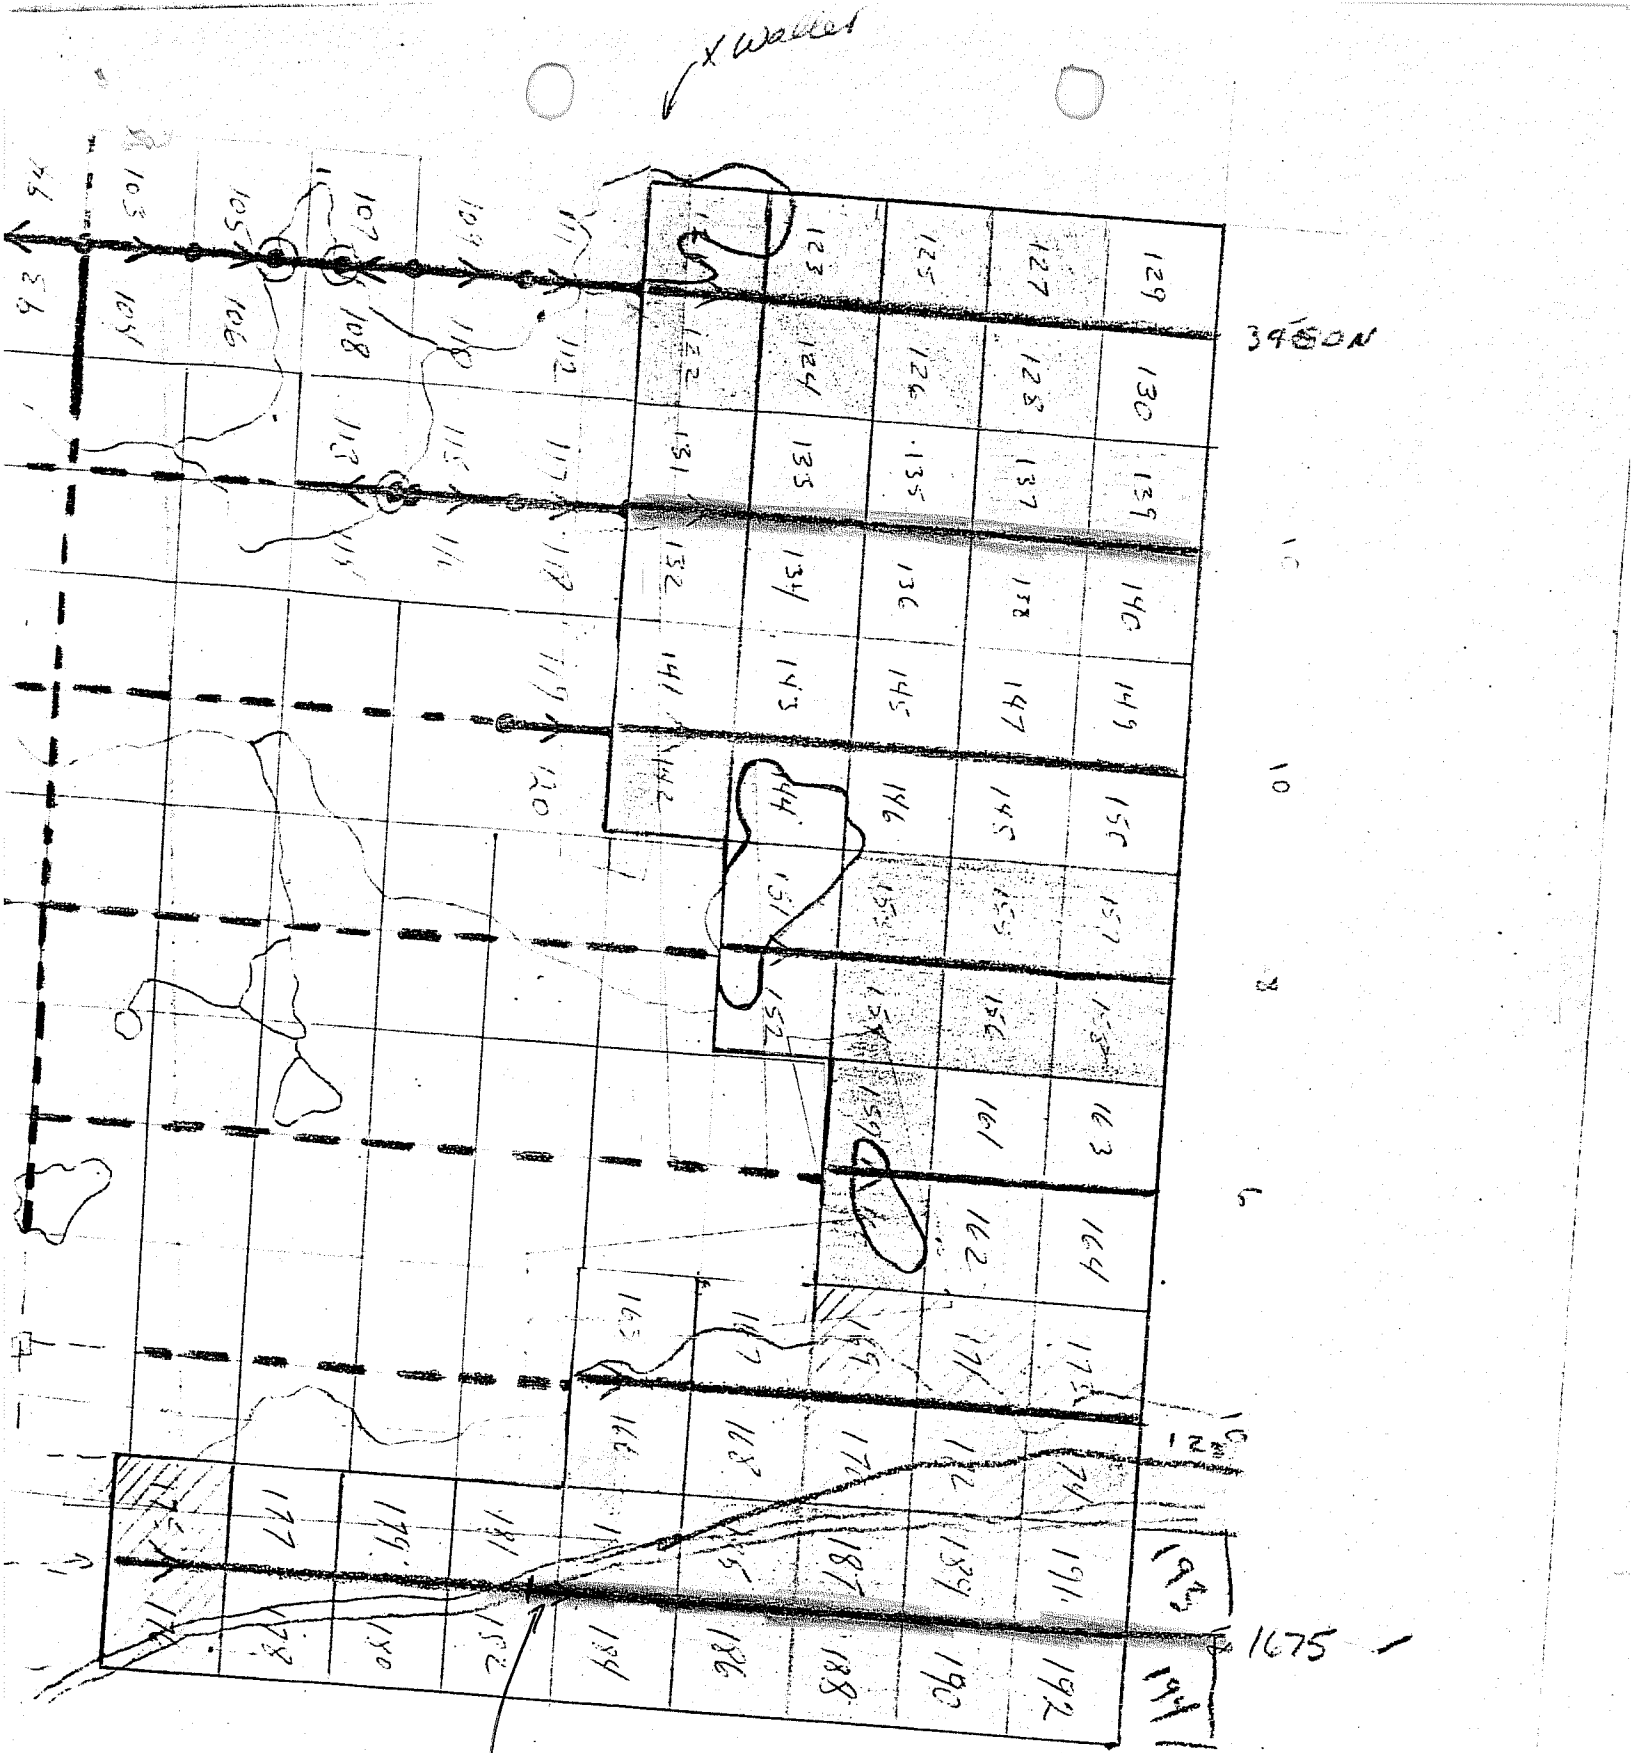

I understand from our conversation that you would like to do this work when there is enough snow on the ground to use the skidoo. Also, that you will re-blaze the two location lines during the same period.

Yours truly,
