Mr. P. R. Swainson,  
Swainson - Lundle Agencies Ltd.,  
4914 Gaetz Avenue,  
Red Deer, Alberta.

Dear Sir:

With reference to your letter of January 11th,  
I wish to advise that we have no present interest in your  
claim on the Aishihik Road.

If we would happen to be in that area next summer  
we would plan on looking over the mineralization on your  
claim.

Thank you very much for submitting the claim for  
our consideration.

Yours sincerely,

Paul M. Kavanagh  
Chief Geologist - Exploration

Toronto

Dear Sirs:

A group of us own the "Len" claim at Mile 33 Aishikik Road. Your company saw this & staked about 75 around it last March. Our group would sell it to you for \$10,000<sup>00</sup> plus a \$1<sup>00</sup> a ton royalty should it produce. There is a good vein of molybdenite on it in quartz & the moly is also in the granodiorite joining. This vein can be traced at least 1/2 mile. There is also considerable copper in bornite on the claim & also scheelite. I was to meet your representative Al Kulon in Whitehorse last June but I believe bad roads prevented his keeping the appointment & I had to leave.

Will be pleased to hear from you as to your interest. We have no intention of dropping this claim as perhaps was thought when it was surrounded.

Yours truly  
P.R. Swainson
