JUL 21 1975

KERR ADRIAN MINES LTD.

Bill,

Enclosed ~~PER~~ are the drill logs for DHH 2, 3, 4 and 5. The visual grade estimates for DHH 3, 4 are also included.

The angles measured from the drill core are from the long axis of the hole.

drill hole

θ = angle from long axis of core.

If all goes according to schedule the samples for DHH 3 and 4 will be sent out at the same time as this letter.

The form card is for the Group Life Surrogate Plan and I believe it is to become effective July 15/75. I completed as much of the card as I had information for, the rest hopefully can be completed at the office.

Steve
