RE: VIC Claims, Previous Work Reports, NTS 115 I 3

Gordon Dickson told me that when you and he and Ray met in Cārmacks he told you about a report that was done in the later 50's by Asbestos Corporation. He has lost the report and map and apparently you suggested if he could supply some details then you would approach Asbestos Corporation to see if they had a copy.

The agreement was dated 25 June 1958 between Gordon Dickson and Asbestos Corporation. The claims involved were the Klaza 1 to 9 (now the VIC), the Dome 1-7 claims on Mt. Nansen and the Billy 1-6 claims on Mt. Nansen. Dr. Robinson wrote the report and Peter Reardin SP? who was in charge of Asbestos Crop. also visited the property. The field work during 1958 and 1959 was carried out by Eāgle Livgaard. Apparently both Robinson and Reardin have passed away.

Dickson has a copy of a 1947 report by Smitheringale and a copy of a 1974 report by Peter Sevensma for Skyline which Dave Arscott has seen at Dickson's VIC Claims camp.

I assume Dave Arscott will copy the Sevensma reports for our use.

Best regards,

A. D. Clendenan
