Joan Eamer
Curragh Resources
Whitehorse, Yukon

Dear Joan:

Thank you very much for your information yesterday on company activities. I have attached the Curragh Resources 1987 Water Quality data which will be presented to the Yukon Territory Water Board on 6 Nov 1987. I would gladly answer any questions that you might have.

Yours Truly

Gerry Whitley
Administrator, Pollution Control

CC Ken Wile
Environmental Protection Service

WATER QUALITY AT CURRAGH RESOURCES 1987

Three examples of the quality of effluent are presented.

1. Suspended Solids have been below 15 mg/l.
2. Zinc has been below 0.5 mg/l.
3. Cyanide has been above 0.05 mg/l at times.
Curragh cyanide results may not be accurate.
Water Resources and Curragh are working together
to meet the licence limit.
