10

Sept 30 37,363.13

Balance 4.036.89.

Remaining to be paid - Octon balance & bills \$ 15000 - 2000

Gordon Davis & John Fairlie to work to end of Oct.
on maps & stream sills.

Samples not run will be sent to x-ray lab.
for analysis.

Spectrographic analysis same.

6-7
miles north of Two-bally lakes.

Structure of Blower pit - large hanging from
to give 0.9% lead. This to be checked by Wet assay.

200' thick - 400-600 wide.

1000-2000 long "

Outcrop of quartz with pyrite 200' away.

Some ^{hot spots} FeS₂ found in pyrites but does not seem
important.

Francis R. Synd.

Oct 16th 1963.

Total trail amount -
entitled to $4,450^{00}$.

Motion made to sell bldgs.
to highest bidder as in & value
is ..

Total Expenditure

135,362.56

Mt. Mendocino
1962 Property

91,500 in 1962
44,000 in 1963

Balance on hand 4862

Total road $\frac{4450}{69310^{00}}$

Bldgs. Stolen
Seymour Evanson.
Work truck in

Walter Forsberg probably
single leader. He did not
steal fuel

Today - Yerty Lake -

Oct 16th 1963

Some pyrite & chalcos in gabbro's. but nothing important.

Area has been well prospected.

Gabbro, diorite fairly common.

Suits not all done.

Og Lake

Prospecting mostly north of Og Lake.

Generally lean country.

Have results on
perhaps 50% of
stocken samples
collected during
season.

Coral Point.

Some mineralization along barroisitic contact.

More sulphides seen here than elsewhere.

Total collected
→ 400 samples.

[Stocken not run.]

South of Highland Lake.

Diagenesis along intrusive contact. Some pyrite & pyrrhotite.
but nothing important.

Oscar Lake Area.

Selenite found by camera

Thistle Mt. Area.

No geologic belts

Only mineralization was in Shinarump level. (P.B.)

O.B. cover very high. So more geologic

Main basis for geology in was structurally complex area.

Mid-May - Snow ^{Transferred Property} of lower hills near
Watson. April 30/63.

Who to be in Watson May 7th

Crews can start property May 15th, 16th or 17th

Remain eqpt. to be used in Torbally lakes area
when high grade.

Photography - Will be done by A. Aho.

^{Sylyski} Bragg - Oscar lakes - 10% total interest ^{equal partners.}

Harris + John Fairly - geologic team co-ordinate
projecting teams

Pete + Jake Khundru - Beaver River - Gerty holes
Torbally lake.

Anderson + Michel - Beaver River - Gerty lake site
8% to discoverers.

Rent of cabins in Watson @ 50/month.

Adding two PRT 20 radiars.

Operating on Bot Harrison Airways frequency.
4675.5 kc

Mr. R. H. Brown is submitting area of gorse to
be investigated by Aho.
