Mr. W. S. Row,  
President,  
Prospectors Airways Company Limited,  
Virginiatown, Ont.

Dear Bill:

The matter referred to in the enclosed letter from Herb Stuart has been dealt with.

The submission by Mr. Kohler consisted of a mimeographed tabulation of several prospects in the Yukon, some of which we have examined. The man acting for Kohler in Whitehorse is apparently a self-appointed agent, as he offers for sale properties that we know to be owned by others who heretofore have dealt for themselves.

Mr. Kohler was advised to have his agent call on Ivor Mast in Whitehorse to discuss any prospects until such time as Ted gets up there.

Yours sincerely,

CLC:JK  
Encl.

Charles L. Coleman,  
Managing Director.

Dear Mr. Stuart:

I have for acknowledgment your letter of March 16th, regarding a Mr. Kohler who has an office at 32 Broadway. Mr. Coleman has a copy of your letter and the attached reports by Dun and Bradstreet, so he is fully informed if contacted by Kohler.

Yours very truly,

W.S. Row,  
President.

Dear Charley:

Re: Mr. Kohler

I think in view of all information which we have regarding this man that it is very risky to have anything to do with him. My impression is that he is a thoroughly unreliable character, and if you have anything to do with him, first thing we know we may be confronted with the situation that if we touch anything that Kohler ever heard of in the Yukon, he may be in there claiming a commission. My inclination would be to sever relations completely with him right now, and to instruct all P.A. men including Ivor Mast to have nothing to do with either him or his so called agent either by way of correspondence or conversations.

Yours very truly,

W.S. Row,  
President.

Attention: Mr. Charles L. Coleman, Mgr. Dir.

Dear Mr. Coleman: Re: Mount Freegold & Whitehorse Copper.

This is to acknowledge receipt of your letter of the 21st instant with thanks for the information.

As you suggest, I shall be glad to ask Mr. Goelner to call on your agent, Mr. Ivor Mast in Whitehorse, after May 15th.

I believe that Mr. Goelner has faith in his offerings but that he just did not have the money to stake them.

We have a number of other mining claims in Canada to offer, if you have time to consider them.

Would you be interested in a Titanium property?

I have written Mr. Goelner to call on you.

Yours very truly,

*F. Dudley Kohler*

March 21st, 1956

Mr. F. Dudley Kohler,  
West & East Trading Corporation,  
32 Broadway,  
New York, N.Y.

Dear Sir:

Thank you for your letter of March 17th relative to certain mineral prospects in the Yukon Territory in which you think we might be interested.

We recognize the prospects, Mount Freegold and Whitehorse Copper, as properties that we have examined and have no interest. Inasmuch as these belong to others we presume Mr. Goelner must be acting as an agent.

It is possible that we have examined some of the other prospects mentioned but lacking particular details we cannot say definitely.

As Mr. Goelner is a resident of the Yukon, it would be advisable for him to call on our agent, Mr. Ivor Mast, in Whitehorse. Our chief geologist will be in Whitehorse some time after May 15th and would follow up anything of interest.

The first paragraph of Mr. Goelner's letter seems to indicate that some or many of his prospects are not yet staked. This would suggest that he cannot regard them too favourably.

We are returning herewith your map of the Yukon Territory.

Yours very truly,

PROSPECTORS AIRWAYS COMPANY LIMITED,

Gentlemen:

At the very kind suggestion of Mr. H. Z. Stuart, Resident Engineer of Mines of Phelps Dodge Corporation, 300 Park Avenue, New York City 22, N.Y., I am sending you enclosed, the location map of the Whitehorse, Yukon copper prospect, and the exceptt from Paper 52-30 of the Geological Survey of Canada, relating to this area, and the map of Western Canada.

I am also enclosing a copy of my letter to Mr. Stuart, dated the 10th instant, setting forth the information received from my prospectors in ahat area.

It is desired that you check on this area and advise whether you would recommend to Mr. Stuart, the acquisition of any part of it, and what your suggestions would be for the development of the properties mentioned, and designated, A,B,C, D.E.and F.

Kindly mention my name to Mr. Hermann Goelner, whose address is Box 651, Whitehorse/Yukon, Canada, who sent me the enclosures, and tell him that you may be interested in making an examination of the prospects for the information of Mr. Stuart.

Thanking you for your kind attention and hoping to hear from you in this regard, I am

Yours very truly,

*F. Dudley Kohler*  
F. Dudley Kohler, v.p. *F.D.*

C/ Mr. H. Z. Stuart.

Encs:

On the F property, we have a financing proposition rather than an outright sale as of now. The property, though rich in grade and large in size, has only sporadic showings on surface. The discoverers made therefore an agreement with us to do the stripping on the property with a bulldozer for a half-interest. This stripping would cost approx \$3,000. and would like you to finance it. Since it can not be done before Spring 1956, we have enough time to negotiate an agreement. All information will be furnished as soon as I meet the other party. We would give you half of our interest for the financing and you would get the property through us since we have the sale too. In case you did not want the property, you would get a quarter of the price obtained from another buyer, or in case you buy the property, for example, for \$100,000, you would only pay \$75,000 since you would own a quarter of the property. COME AGAIN?

Properties C, D, E and F are ready for development work this Spring(1956) Legal protection of properties is by staking and recording them with the mining recorders office. Titles are issued for the claims when the requirements of the mining act are complied with and the claims become the property of the staker. In case of sale of the claims, a contract will be made by the lawyer, transfer of property registered in the mining recorders office, documents will then be deposited in the bank, and the bank transfers them in compliance with the terms stated in the contract. These Canadian procedures might be a little old fashioned but they are solid and protect both parties.

In order for me to go through with these procedures, we have, out of necessity to follow this proposal, unless you have another solution. There are numerous expenses involved in getting these sales under way, such as legal fees, registration of powers of attorney, certified copies of titles and assay reports, copying of maps and reports, sending of samples, trips to properties and to mining recording offices where properties are recorded. The expenses for the different properties will be approximately: since you would own a quarter of the A \$500. B \$200. C \$200. D \$200. E \$200. F \$100.

Properties C, D, E and F are ready for development work this If you decide on A and B right now, please deposit the corresponding sums in my account No. 4255 with the Canadian Bank of Commerce in Whitehorse and notify me to that effect. I shall then hold the respective property for six weeks after you have received all information and documents to make a decision as to whether you want to buy or not. I might be able to hold them open for you longer, but that is hard to say when other companies are interested in them too. I shall guarantee six weeks after you have received all information and documents for you to make a decision. All expenses will be accounted for. When I was in Toronto last winter, I wanted to inform you about our plan for exploration already, which I am presenting to you now.

- On or exploration program for this year are:
- |                                      |                            |
|--------------------------------------|----------------------------|
| One quartz gold in British Columbia, | Two silver-lead in Yukon.  |
| Two placer-gold in B. Col.           | One silver-lead in B. Col. |
| Two placer gold in Yukon             | Three copper in Yukon.     |
| One cinnebar in Yukon                | Four copper in B. Col.     |
| One Nickel in Yukon                  | One Rare earth in Yukon    |

A few of these are even staked right now, but need definitely more prospecting. To finance this exploration work, and in case of discovery justifies it, the staking of same, we want to form our own exploration company, and I have decided on the name: "Western & Columbia Resources." A three million share company has to be formed on a property which warrants such an issue, and the money would be used to develop that property and provide the necessary funds for the exploration program. Not all of these properties on the program will turn out to be producers, but one can not afford to pass them up. Since the costs for exploration on a property are relatively small, and the staking is the costliest item in the exploration work, we stake only such discoveries that definitely warrant it. Once a property is ready for production, a mining company will be formed on it, in which Western & Columbia retains an interest, or it can be sold and ~~an~~ an interest retained. Western & Columbia would be a subsidiary and you would handle the issue of stocks, sale of properties or mining and sale of ores and we would handle the exploration, buying of properties, participating in ventures like on F property, development of properties, contract staking, trucking, trenching and stripping. We have an ideal property to form Western & Columbia on, in the E property. The price is \$ 5,000 down, the ore is about \$60 per ton, situated on the Tauchine

STATEMENT  
ERRATA

River on Conover Mountain with good mill site, the Tauchine River having a fabulous power potential, and ore can be shipped by barge to Wrangell, Alaska on the Stikine River. It is only four miles to the Stikine River from Conover Mountain. About a square mile of the Mountain covered with veins up to four feet wide. Incidentally we had a plane crash coming back from there this summer(1955) but were able to walk out. I would appreciate very much to have your advice and opinion on this. *ON WHAT?*

The reports, maps, information and samples will be forwarded as fast as we can copy and compile them. Hoping to hear from you soon and expecting good news, I remain Yours faithfully,"

The above letter was received by me last fall but I was not able to send an answer as to the financing. I am sending you an exact copy of this letter so that you can get the idea of the sender and how best to answer him. He has had the idea of making a stock issue to raise the money but without a record of earnings, a stock issue would be difficult to sell here at this time. For this reason I am sending his letter to you for your suggestions. This man and his co-workers are honest and industrious and they will do their best to make a success of their company, in which they offer a stock interest.

Hoping to have the pleasure of hearing from you soon in regard to the above letter, I am

Yours sincerely,

Location Map, Whitehorse, Yukon,  
Enclosed.

F. Dudley Kohler, v.p.

P.S. Kindly let me hear regarding the papers from Mr. McDowell which I left with you on the 9th instant.

I have many more mining properties to offer also, which I shall submit to you when you have time to read them.
