

DWG. NUMBER: 1817-001

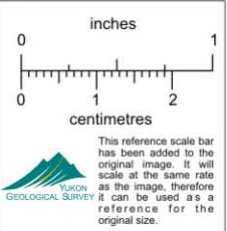

**GRIZZLY  
DEPOSIT  
EXPLORATION  
RAMP**

PRELIMINARY - NOT TO BE USED FOR CONSTRUCTION

**LEGEND**  
--- INTERPRETED FAULT

**NOTES:**  
1. GEOLOGIC INTERPRETATION BASED ON DRILL LOGS PROVIDED BY ANVIL RANGE MINING CORPORATION (ARMC).  
2. THE PROPOSED DECLINE LOCATION IS ASSUMED TO ORIGINATE FROM THE BLIND CREEK PORTAL CUT (AT COORDINATES 8894420 N, 507625 E, 839.6 EL.) ON A GRADIENT AT -1%. ELEVATIONS INDICATED ABOVE ASSUME THAT AN APPROPRIATE COLLAR WOULD BE ESTABLISHED WITHIN APPROXIMATELY 30 M FROM THE TOE OF THE PORTAL CUT AT AN ASSUMED +2% GRADE. ACTUAL DESIGN ELEVATIONS SHOULD BE ADJUSTED ACCORDING TO FIELD CONDITIONS.  
3. DRILLHOLE SODICES ENCOUNTERED ARTESIAN FLOWS DURING DRILLING. INTERPRETED FAULTS SHOWN ALONG THE DRILL TRACE MAY BE RESPONSIBLE.
