July 22, 1969

Mr. W. M. Sirola,
Kerr Addison Mines Ltd.,
Suite 405 - 1112 W. Pender Street,
Vancouver, B.C.

Dear Bill:

Paul Kavanagh has asked that I send you the following material covering our Matt Berry Mines project:

- 1) Directors' Progress Report dated April 30, 1969.
- 2) J. A. Willcox's qualification report for present under-writing scheme.
- 3) Table 4 of Archer, Cathro & Associates ore calculations.
- 4) Tabulation of Matt Berry's engineer's proven tonnage.

The tonnage calculations as outlined in the Progress Report are inferred and for a mineralized length of 900 feet and for a dip length of 550 feet. Fill in drilling will be required to change this figure to proven ore.

I will try and contact you by phone this Thursday to bring you to date with the discussions with Paul Kavanagh.

Yours very truly,

MATT BERRY MINES LIMITED
