

YUKON REVIEW
GEN CLAIMS, Y. T.

008778

May 25/77

Re Telephone enquiry to Harry Fromme -
Recent D-Drilling on Green.

Harry says he hasn't any detail info on the
first hole (other than published news) - (35' - 230' in subsoils
"believe we got a big one"
in black shales). Weathering to depth of about 100 feet.

Hole No. 1 lost when rods stuck. Strained soft
ground or soggy ground.

Okay to visit property and to examine D.D. core.
Quickly check with Harry for arrangements.

Jack

May 25/77 - phoned Harry Fromme again, not in, left message for
H.F. to return call. Expected return call @ 11:30 AM but
still no call. May 25/2:15 pm. J.L.
