Mr. W. Johnson,  
Room 202,  
80 Richmond Street West,  
Toronto 1.

Dear Mr. Johnson;

This is just to advise you that after careful consideration we have decided not to seek an interest in the properties northwest of Ross River, Yukon which are described in the report we are returning to you herewith.

We appreciate your giving us an opportunity to review your data.

Yours sincerely,

Paul M. Kavanagh  
Vice-President - Exploration.

A Mr. Webb Johnson brought in a report prepared by Watts, Griffis & McQuat Limited on this property which is located three miles north of Rose Mountain or 45 miles northwest of Ross River. The coordinates are 133° 40'W and 62° 24'N.

A very considerable amount of work consisting of geological, geochemical, magnetic and gravity surveys was completed in 1967. In my view, the results were almost completely negative. Ross Lawrence, who authored the report, disagrees and has recommended drilling what he calls a superimposed geochemical and gravity anomaly. I disagree on the basis that an 0.5 milligal gravity anomaly is in all probability caused by ultrabasic rocks and the geochemical values (less than 100 ppm lead or zinc) are too low to be much more than background. On the basis of what we know about both gravity and geochemical anomalies, I do not even see any justification for additional work of any kind on this ground.

*OK - negative*

I have enclosed the Watts, Griffis & McQuat file which contains rather voluminous maps of various kinds. Mr. Johnson would like the report returned to him at Room 202, 80 Richmond Street West, Toronto, Ontario.

To.....W. M. Strola.....From.....P. M. Kavanagh.....  
Subject.....Property Submission, Vangorda Area, Yukon......Date.....February 27th, 1968.....

Mr. Webb Johnson phoned this morning saying that he would like to submit a report on a property in the Vangorda area. He mentioned that the property has received a favourable recommendation from the Seigel Company and from Watts, Griffis & McQuat Limited. When I advised him that I would send the report to you directly for your consideration he mentioned that a copy of the report was available in Vancouver and he said that he would arrange for that copy to be submitted to you directly for our consideration.

I will await your comments after you have received the report and considered it.

Paul M. Kavanagh
