Dear Brodie:

This is to advise that after a careful review of the report submitted with your letter of January 30th we have decided not to seek an interest in further exploration on the Northlake properties. We are returning the report herewith.

Thank you for giving us an opportunity to review the situation.

Yours sincerely,

Paul M. Kavanagh  
Vice-President - Exploration.

Dear Brodie:

*Location 105-G*

This is just to advise you that we have received your letter of January 30th (with attached report) concerning your properties in the Grassy Lakes area of the Yukon, and to let you know that we are forwarding the report to Bill Sirola, our resident geologist in Vancouver, for his consideration.

I will let you know as soon as possible whether or not we would desire to take an interest in your properties.

Yours sincerely,

Paul M. Kavanagh  
Vice-President - Exploration.

Dear Sirs:

Northlake Mines Limited is the owner of 416 claims in the Grassy Lakes area of the Yukon Territory in a geological environment similar to that in which the Anvil deposits have been found.

During the field seasons 1966 and 1967 expenditures in excess of \$400,000.00 have been made by the company in carrying out exploratory work on these and adjacent claims. Some encouragement has been returned in the course of this work, but it has become apparent that the scale of expenditures required is beyond the financial scope of a small company such as ourselves.

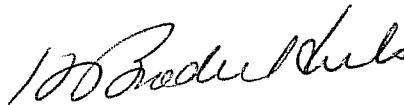

Accordingly we are interested in attracting the co-operation of a large exploration company whose budget would be more suited to undertake further work on this large and comparatively remote property.

We enclose a copy of a report by the company's consulting geologist, Mr. J.M. Cormie, P.Eng.

If you are interested in entering into any type of agreement with us for the further exploration of our holdings, we would be pleased to hear from you.

Yours very truly,

NORTHLAKE MINES LIMITED

H. Brodie Hicks,  
Managing Director.
