Subject..... Acquired Claim Groups - Polly River Project Date..... April 11th, 1966

Thank you for the informative memorandum of April 6th, listing certain information regarding the 5 groups recently staked.

Attached are copies of the accounting code designation notices concerning the 5 groups, which are as follows:

- Mac Group, now named the Kalzas Range Group, Y-4. EXP
A MAP
B ASS
- Ram Group, now named the Little Kalzas Lake Group, Y-9.
- Nan Group, now named the Hoole Nan Group, Y-10.
- Mar Group, now named the Hoole Mar Group, Y-11.
- Cher Group, now named the Hoole Cher Group, Y-12.

I think I have mentioned before that giving the groups names with geographic connotation makes them very much easier here in head office to keep the groups in mind and where they are.

Clyde should try his best to allocate charges to each of the groups concerning the work done on each of them. Work which the project does on open ground should continue to be charged to the Y-3 account number assigned to the project as a whole.

Paul M. Kavanagh
Chief Geologist - Exploration.
