Subject Dynasty Explorations Date September 13th, 1965

I wish that you would make contact with someone in the brokerage business in Vancouver who would keep you posted on the price of Dynasty shares, and I wish that you would keep me posted once or twice a week. In that way I think we can gauge the caliber of the diamond drilling results they will be obtaining, and will therefore be better able to decide when a definite contact with Cyprus Mines Corporation should be made.
