Attention: Mr. William Sirola

Dear Bill:

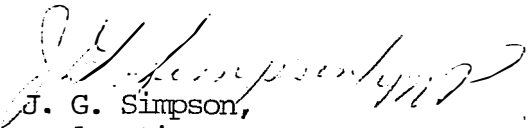

Re: JANICE 1-137 - Sheet 105-K-2 and 105-K-7

I enclose recent copies of the above claim sheets showing the location and validity of the JANICE 1-137 claims, which were staked by Cyprus Anvil on the basis that these claims would be available for a 50/50 joint venture with Kerr Addison. The actual location of the RUTH claims is as shown in blue and does not pose any problems. Incidentally, the three claim width of RUTH claims that are valid would be available to Cyprus Anvil on an option basis should we so wish.

We will be formulating proposals for a long-term joint venture for your consideration both on the JANICE and adjacent KIT, FOTO, DELTA, ECHO and CAPA claims, as discussed with yourself and Dave Lowry. While you would, of course, be free to decline any or all joint ventures on the above claims, we assume that your 50% interest in the JANICE claims is dependent on our being able to make a mutually satisfactory agreement for an exploration program on these claims, otherwise, I am sure that we can formulate an attractive proposal within our dual corporate requirements and look forward to discussing this with you in the near future.

Yours truly,

CYPRUS ANVIL MINING CORPORATION,

  
J. G. Simpson,  
Exploration Manager,

JGS/mp  
Encl.
