

SECTION 58+00S

SECTION 100+00S

SECTION 112+00S

SECTION 120+00S

- LEGEND**
- Eocene or Younger**
- 3 CARMACKS GROUP
Basaltic and andesitic volcanics
- Lower Cretaceous and/or Upper Jurassic**
- 2 TANTILLUS FORMATION
 - 2i Conglomerate (quartz & chert pebbles)
 - 2h Coal Measures
 - 2h1 Mudstone, sandstone, conglomerate, coal, felsitic flows or sills
 - 2h2 Conglomerate (quartz & chert pebbles), sandstone, minor mudstone, coal
 - 2h3 Conglomerate, conglomeratic sandstone, sandstone, minor mudstone
 - 2g1 Sandstone, conglomerate, mudstone, coal
 - 2f Gritty mudstone
 - 2e Quartzose, conglomeratic sandstone and sandstone
 - 2d Mudstone
 - 2c Very clean quartz sandstone
 - 2b Conglomerate (quartz & chert pebbles)
 - 2a Sandstone, conglomeratic sandstone, minor conglomerate
- Lower and Middle Jurassic**
- 1 LABERGE GROUP
Conglomerate (cobbles of dark volcanics, granitic rocks, siliceous dark mudstone, arkose, mudstone, minor coal)
