

LEGEND

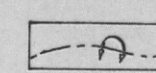

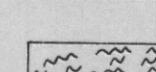

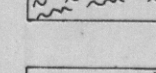

MINERALIZATION

-  Pb+Zn greater than 10%
-  " " " 5%
-  " " less " 5%

ROCK TYPES

-  Bleached phyllite
-  Quartz sericite phyllite
-  Calcite phyllite
-  Chlorite phyllite
-  Graphite phyllite
-  Biotite-bearing phyllites or schists
-  Biotite-Garnet and/or staurolite bearing phyllites and schists

STRUCTURES

-  Axis of recumbent fold
-  Fault or shear zone
-  Contact bedrock and overburden
