 AREAS

— HESS PROJECT —

FIG. 1

- Geologically mapped area 1=1mi.
- Geologically mapped area 1=1/2mi.
- Areas being prospected
- Anomaly evaluation
- Area's being silt sampled

LEGEND

- | | |
|---|---|
| 14 Volcanic rocks; Porphyry (Tertiary) | 2 Varicolored Slates, Chert, Siltstone (Ordovician Silurian) |
| 11 Intrusive rocks; Granodiorite, Quartz-monzonite. (Cretaceous) | 1 Yukon Group; Quartzite, Phyllite, Conglomerate, Limestone, Slate. (Proterozoic) |
| 3 Graphitic Argillites, Chert, Greywacke (Devonian-Mississippian) | Claim group |
| 10 Mesozoic Quartzite | Geologic boundary (Approximate) |
