November 13th, 1969.

Mr. Hugo Brodell,
P.O. Box 13,
Watson Lake, Y.T.

Dear Hugo:

I received a copy of your expense account and a cheque will be forwarded to you shortly.

Thank you very much for mentioning the Nugget Jensen copper showing near Little Buffalo Lake. Strangely enough, I received your letter when I had our old geochem maps out for this area. We did a large program on the Aishihik Lake sheet in 1966. We did find a small copper prospect here, as well as an old reported placer gold platinum showing. It is indeed interesting to us because of renewed interest in the Carmacks area to the north and we will certainly take another look next year. I don't think it is staked at this time.

Yours truly,

ATLAS EXPLORATIONS LIMITED,

J. S. Brock,
Vice-President Exploration

JSB/mp

Vancouver 1, B.C.

Dear Sir

I'm sending you my Travel and Expense Report for the last two staking trips.

I have lost one of my C.P.A. tickets but Tim knows that I had them, as we travel together.

I'm also sending you a map that I forgot that I had until I landed at Minto. (The prospect is marked)

An old prospector by name Nugget Jensen left this one for me when he left Yukon in 1954.

If I remember right the prospect is copper.

and it might be of interest to you as it is close to Carmacks. I do not know if it is staked or not, as they do not have the recording maps of that area here at Watson.

P.S. Looking at the map I see that is not the Yukon River so now I don't know how far it is to Carmacks.

Regards

Hugo Bradell
