Mr. J.E. McMynn
Kootenay Base Metals (Consolidated) Ltd.
404 - 510 W. Hastings St.
Vancouver, B.C.

Dear Sir:

We are presently independently compiling data on all mineral occurrences to be included in a mineral atlas of Yukon and adjoining areas, and would appreciate any information that you may have in your files on prospects or areas that you have examined.

What we are interested in is any data on showings, float, or mineralized areas which is not confidential to you. This data will be compiled in an effort to define mineralized areas or districts and to serve as a basis for stimulating further search for minerals in the territory.

We are particularly interested in a prospectus or other data on your Logjain Creek prospect out of Teslin, Yukon.

All sources of information will be kept confidential.

I hope you will give this your earliest favourable consideration.

Yours very truly,

per A.E. Aho and Associates

A little late - but perhaps of some help
