THE DECLINATION OF THE COMPASS NEEDLE, 1952

The declination of the compass needle at any place along a red line is the declination given on that red line. At other places the declination is between those given on the neighbouring red lines; that at the place marked A, the declination is between N. 49° 30' E and N. 51° 15' E. The easterly declinations of the compass needle are decreasing 4.5 minutes annually.

Surveyed, compiled, drawn and printed by the ARMY SURVEY ESTABLISHMENT R.C.E., 1949-52.
Aerial photography by the R.C.A.F. 1949.
Universal Transverse Mercator Projection.
