Mr. E. O. Chisham  
Atlas Exploration Ltd.  
#330, 355 Burrard Street  
Vancouver, B. C.

Dear Ted:

Enclosed are the remainder of the geochemical analyses on the samples that you shipped to us last winter. Please excuse the delay.

Some of the coppers and zincs were done using an atomic absorption unit; an asterisk at the heads of these columns indicates such analyses. However the leads have all been done colorimetrically so as to be consistent with the results sent to you previously.

Yours very truly,

J. R. Woodcock
