Whitehorse, Yukon Territory

Dear Sir:

Your letter to Mr. Lieber has been passed to me for reply.
We would be interested to hear more about your scheelite show
and could arrange a property examination sometime this summer.
Perhaps you could give us an address or contact where I could
get in touch with you when I am next in the Yukon.

Yours very truly,

J. G. Simpson

Mr. Silber,
Dear Sir.

am still holding
those tungsten claims in
the Mayo area. Road right
to property, have 12 claims
in good standing, room to
stake more adjoining. Have
by engineers report approx.
\$50,000,000 worth of scheelite in
large tabular material, clean
run scheelite in quartz and
quartz no impurities. Just
a matter of pushing material
through crusher and recovery
plant. property about 40 miles
from Mayo. right across
valley from Pass Silver.
PASS SILVER. *from*

Could give you a very easy deal on this property as have not got the finances to put it across. Some cash and maybe a stock position would do. Anyway it could be a very easy deal for you to handle. Property has been only partly explored

would appreciate hearing from you either positive or negative.

Thanking you

I remain

Yours Sincerely

CONRAD A. PROVENCHER
